We offer unique hand-made furniture, using repurposed material when possible. Because of this, many of our pieces are rustic in nature and it is normal for them to have the appearance of unfinished or distressed wood. However, if you don't like this, just let us know and we can accommodate any finish, style, materials and/or any other specific design requests you may have. We have many pre-made items (examples below), and we also love to create custom, made-to-order pieces in a quick turn-around time.
